

BOWIE

HM 800S HYDROSEEDER

Bowie has long been one of the largest and leading hydroseeder manufacturers worldwide. Bowie hydroseeding equipment is renowned for delivering market leading production, with superior mixing and pumping power.

A Bowie unit is capable of mixing and pumping heavier slurries than other hydroseeder brands, and are totally designed with contractors in mind.

A Bowie's powerful mechanical agitation, and short / straight suction and discharge line design, mean that when coupled with Bowie's gear pump technology, customers experience less plugging, reduced cavitation, and greater productivity. Bowie units are capable of pumping heavier slurries than other brands that operate with a centrifugal pump; this means greater output per tank whilst saving water across the job. Not only can a Bowie pump a heavier slurry, it can do so over longer hose distances, making tough access projects possible.

All Bowie skid units offered in the UK hold full CE conformity and come with 12 months warranty.

BOWIE HM 800S HYDROSEEDER - TECHNICAL SPECIFICATION

Engine: Yanmar 47HP Stage 5 Diesel

Pump: 3" Gear Pump

Length: 11'-11" (363 cm), **Width:** 6'-1" (185 cm), **Height:** 8'-5" (257 cm)

Empty Weight: 2248 kg, **Liquid Capacity:** 3626 Litres

Optional Equipment: Clear Water Flush System, Hose Reel: hose reel 100' / 200' mounted on deck.

Parts and Equipment: 4-Nozzles (EC1735, EC1739, EC1740 & EC1749), 4-Part F Quick Couplers, 1-Part D Quick Coupler, Spanner Wrench, Parts Manual, Engine Manual.

ABOUT HYDRO APP SYSTEMS LTD

Unlike many machinery and product distributors, our team has over 30 years combined experience in erosion control and environmental contracting, working within the the following sectors:

Construction - Civil Engineering – Rail – Utilities – Highways

Golf Courses – House Building – Airports – MOD - Nuclear

When you buy a machine from Hydro App, you are buying from an expert with thousands of hours of practical hose time and experience across all manufacturers. The team know every component of our machines and can advise from a contractor's perspective.
